For many years I was a sufferer from bronchial con-umption, I visited southern California for a cure, but I seen found that I needed something more positive in its nature. I applied to Dr. Williams, who, with his various medicated inhalations, cured me in three months.

MRS, JAMES GRISWOLD, Buffale, N. Y.,

I have not had an attack since the first inhulation from Dr Williams, which was about a year, ago: HON. ERAS fUS KELLY, Moutres!, Canada says: The Scuthern California climate is ahead of anything I have ever enjoyed, and yet it was in ufficient to cure me of inharcular

WILSON GRANT, ESQ., Louisville, Ky, writes: For nineteen years I was a sufferer from catarrh, which latterly got into my lungs and produced catarrhal consumption. I less sixty pounds in weight and became so weak I could not walk 100 rods. After I had spent six months in Southern California I concluded to try Dr. Williams of whom so much had been said, and I am gratified to know that in four an I one-half months he has cured me entirely, and in a few days I return home delighted to my delighted family and friends. Our Eastern friends should not depend upon climatic influences slone, for herein lies the fatal intake in many cases, as rearly every case requires positive medication, in order to become ride of the offending matter—the consolidated portion of the lungs—so as to give the climate an opportunity to heal them.

In msuses, vom-ing, extreme cases of dyspepsia, Kumyas acts like a charm, promptly relieving all the dis-treasing symptons of such cases. When the stomach rejects all else, Kumyas is retained and assimilated, affording the patient hourish-ment, strength and comfort, and, as a conse-quence, nervousness ceases and refreshing sleep follows. In scarlet, intermittant and ty-phoid fever Kumyas is the best diet. It satis-ies thirst and hunger and allays the fever. It is also highly recommended in consumption as tonic and restorative. To-day's stock market has been a surprise to almost everyone. European war news this morning was interpreted as indicating a more peaceful outlook, and prices at opening were ½ to % lower than they closed last evening, and in the early dealings further fractional declines were made; this was followed after the first fifteen minutes by a reaction in which Union Pacific and Pacific Mail took the lead. From that time until the close the market was strong and unusually active as compared with business of late. At first there were rumors of a favorable character regarding the Union Pocific's floating debt, but the point which carried the day was—first, the declaration of the usual 1½ per cent, dividend for the current quarter by direction of the Pacific Mail, with the official announcement that the Company's earnings for the current quarter to the state of the current quarter than the first and the first state of the current quarter of the current quarter of the state of the current quarter of the state of the current quarter of the state of the current quarter of the current quart with the official announcement that the Company's earnings for the current quater were at the rate of 6% per cent, per an num; and, second, that a resolution habeen adopted by the Pacific Mail, which it was believed, would lead to be amicable settlement of the Illurence to be a settlement of the company of the settlement of the settle

the amicable settlement of the differences between that company and the Pacific railroads. That resolution, which was presented by Gould, and which was unanimously adopted, provides that the Union and Gentral Pacific railroads transfer their business to the trans-Pacific (the Oriental and Occidental line between San Francisco and China) to the Pacific Mail, and enter into a contract with the latter company for a term of ten years, guaranteeing the Pacific Mail against opposition in the Uhina business, in consideration of which the Pacific Mail Gompany would enter the transcontinental pool and co-operate with the railroads between New York and San Francisco. The resolution also provides that allomaters should be decided by the commissioners of the transcontinental business or by arbitrators. This was interpreted as being extremely favorable, not only to Pacific Mail, but also to Union Pacific, and the two stocks steadily advanced throughout the day, gaining in each case over 3 per cent. The rest of the list simply followed in their wake, and none of the active list is lower to-night, and the advances for the other Gould stocks were over 1 per cent. It was learned this evening that Presideat Adams, who left this afternoon for Boston, agreed b fore starting that he would issue to-morrow a formal official sceplance of the terms as set forth in Gould's resolution. It is also stated the three Pacific companies interested have agreed to a proposal to extend the present NEW YORK STOCKS. NEW YORK, April 15.

FRIEND & CO., Real Estate Agents, Room 12, Roeder block, No. 23 Spring street. I will sell 32 elegant residence lots, without reserve, to the highest bidder.

Every lot is covered with the choicest orange, lemon, and deciduous trees, from ten to twenty years old, all in full bearing.

The terms of the sale are such that I believe the present crop will more than equal the first payment—being the cash payment down, the balance being on the most liberal terms.

FRUIT.

This tract contains the choicest of orange, lemon, apple, peach, pear, nectarine, spricot, walnut, fig. prunes plum, cherry, blackberries, etc.

TO STRANGERS AND OTHERS.

On this tract of land, please bear in mind that we do not depend upon the rain. The tract is irrigated by two ganjas, or ditches, one on Main street, another on Charity, and we warrant an abundance of water at all times.

AVANUE.

A large avenue runs through the tract, from Alarge avenue runs through the tract, from Main to Charity, dividing it equally.

BARREN LAND.

We have no barren land at all, but every lot is evered with fine, large, thrifty fruit trees. Select the spot in the orange grove, place your residence and you are surrounded with the most beautiful fruit trees and shade. To plant and raise the same trees would take you twenty long years and would cost you an outlay of three hundred dollars per lot, now already matured.

The lots fronting on Main street—the line is designated by large, beautiful typress hedges. The lots on Charity street face the elegant residences of A. H. Judson, Esq., and J. Osborn, Esq., and within two minutes' walk of the fine grounds and residence of the celebrated and renowned Longstreet property. Hardly an excursionist that has arrived in Los Angeles but what has visited this beautiful property. This property that we offer is of the same style in quality of ground, soil and fruits. Two Hundred Now in Use. What a few well knewn citizens (among many who testify to its merits) say about it:

From the KIMBALL MANSION (Mr. A. Hart, proprietor), one of the largest and leading boarding houses of Los Angeles:

"The Oil Burner you put in my range gives perfect satisfaction. It can be run at just half the cost of either wood or cosl. The cost was costing me one dollar per day, and the oil is costing me one dollar per day, and the a stronger heat than wood or cosl, and the heat can be kept constantly at any point desired. The cook says for pastry cooking it excels anything she ever used."

From MILTON SANTEE, member of City Council:

"I use the Edwards Oil Burner about six hours a day on an average. It has given us good satisfaction for heating and cooking, and we like it better than coal or wood, being clean and easily regulated. We have had no accident or explosion and consider it perfectly safe. The expense is about one-half less than wood for same service."
